THE 100 ROUNDS

THE 100 ROUNDS

RAJ NIVAS
PUDUCHERRY

"To make a difference in someone's life, you don't have to be brilliant, rich, beautiful or perfect. You just have to care..."

My first field visit to a residential colony was on the personal request of an elected representative. It was just within four days of assuming my responsibilities as Lieutenant Governor of Puducherry.
We did not look back after this.

We would decide on the place or issue of the visit from the Open House that was being held daily then.

The time we chose was 6AM every Saturday and Sunday.
This was to have time in hand and also to not disrupt traffic.

We have been to over a hundred places which were crying for attention such as:

Drains
Sewerage Treatment Plans
Lakes, Tanks, Ponds,
Community Toilets,
Garbage Dump Yards,
Bus Stand,
Railway Station,
Temples,
Children Parks,
Resident Colonies,
Markets,
Unoccupied Buildings,
NGOs,
Rural Self Help Groups,
Beaches,
Tourist Places,
Rural Youth Group Meetings,
Industrial Estates,
Prison Complex,
Police Lines,
Roads, Bridges,
Botanical Garden,
Hospitals and Dispensaries,
Forest Trails,
Tree Plantation Drives,
Airport,
Factories on Pollution Complaint,
Crematoriums, etc.

I am so glad we did this... and persevered.
I believe field visits by all public officials
are essential to take government to
the doorstep.

@thekiranbedi

Starting shramdaan from Tom on this large water body close to Pondycherry town. To clean and secure it. @PMOIndia

VELRAMPET ROAD VISITED ON: 25 JUN 2016

Mairie, the 19th-century landmark building, was the largest administrative building in Puducherry for nearly 100 years. Considered an important landmark during the French regime, it housed the office of the Mayor of Puducherry Municipality, the Municipal Council, the office of Registrar of Births and Deaths etc. Precipitated by the heavy monsoon showers in 2014, the iconic Mairie building collapsed due to neglect and poor maintenance.

MARIE BUILDING VISITED ON: 26 JUN 2016
